A Report

on

Departmental Seminar

Topic: Sustainable Development: Indian Scenario

Sub-category: Skill Enhancement

Date 27/12/2021

Time: 1.15 PM

Venue: Smart Classroom

Resource person: Mojaffar Hussain Mondal

Associate Professor in Political Science

Rampurhat College, Birbhum, WB.

Number of participants: 37 (thirty seven)

Brief Discussion

Department resolved that students' capacity enhancement programmes would be organized. For this life skill issues would be taken up for discussion. As the environmental pollution and its baneful effect on our lives increases day after day, so issues of sustainable development were selected for deliberation.

On 27th December 2021 our department organized a lecture series on capacity building. All semester students are present on this special series. Prof Mojaffar Hossain Mondal was the resource person of the lecture series.

Contemporary global physical and geographical conditions induced our department to select a very important topic on sustainable development and obviously from an Indian perspective. Which is very needy for our daily life, Prof Mojaffar Hossain Mondal started his lecture on sustainable development and its impact on the national and international affairs, role of the leader of the national and international politics for sustainability of our earth and natural resources, not only that present day celestial body and other resources was affected by the pollution for the aggressive policy of development and luxurious lifestyle, he also talks about the role of the leaders and their aggressive industrial development policy ignoring the biodiversity repercussions can be perceived in our everyday lives.

Subhas Singha Roy
Head
Department of Political Science
Chandidas Mahavidyalaya
Khujutipara, Birbhum, W.B

The questions he raises in his lecture - why we are worried about sustainability, why we would search for others alternative approaches, what is our responsibility to Mother Earth, many natural disasters like flood, drought, cyclones are pertinent.

He discusses the role of government in sustainable development, the various spheres of sustainable development, government policy and government funding of sustainability.

Attitude of the Indian government towards sustainable development is to make India self sufficient, self reliant, natural energetic and hunger free country. At the same time commitment to the environment the Indian government shows on different international platforms and in its environmental policy regimes.

Students from the audience raise some questions and the resource person satisfies them.

Major issues covered

- 1) Environmental Pollution: Causes and factors
- 2) Impact of Environmental pollution
- 3) Ecological thinking: A Brief Overview
- 4) Steps to be taken like:
 - a) Afforestation
 - b) Judicious use of water
 - c) Physical exercise
 - d) Maintenance of personal health and hygiene
 - e) Timely taking healthy food
 - f) Refraining from excessive use of mobile phones
 - g) Engagement in cultural activities to nurture values

We are thankful to the resource person for sparing his valuable time.

All the students present here appear to be very happy to attend this program. They feel that they achieve valuable inputs for their life-style behaviour.

Programme ends with thanks to the resource person.
