DEPARTMENT OF ENGLISH

ICT TRAINING: REPORT SUMMARY

Topic: Basic ICT skills including safe and secure internet surfing, opening, accessing and checking mail, accessing YouTube and other digital archives and repositories.

Category: Skill Development

Date: 06.04.2022 (Wednesday)

Time: 12.15 p.m.

Venue: Vivekananda Seminar Hall

Name of Resource Person: Prof. Nikhat Yasmin, Dr. Sayantan Banerjee, Dr. Subhajit Mondal, Prof. Abhinanda Chakraborty

No. of Participants: 28

Description:

- The training program was planned to provide basic knowledge about ICT related skills. Since many of the students of our college come from underprivileged backgrounds, it was deemed necessary to provide an opportunity for developing such ICT based skills as are essential in today's world and time.
- Without knowledge of the internet or the skills required to work on a computer, it has become considerably difficult for anyone concerned to make sufficient progress or utilize the online or digital resources that are available and within easy access.
- To help the students become more aware of these resources and to enable them to successfully operate the basics of a computer, the students were provided training by the departmental teachers.
- The training program included such skills as **internet-browsing**, opening and checking an **e-mail id**, accessing **YouTube** for scholarly resources, accessing **Google Books** and other scholarly articles, and downloading e-books and other resources from such online repositories as **Project Gutenberg** amongst others.
- The students were also provided hands-on training by the teachers concerned who encouraged them to come up to the dais and clarify their doubts as well as open and access the resources already shown to them.
