### Letter of Appreciation

It is an immense pleasure to me to issue this letter of appreciation on Chandidas Mahavidyalaya that has been imparting higher education for the pupil of the rural belt of Khujutipara falling under my jurisdiction in the district of Birbhum of West Bengal since its inception in the year 1972 with the specific motto to educate the youth for making them employable, socially responsible and ethically correct for their holistic development with the pace of changing local as well as global perspective. To the best of my knowledge it is said that over the years, the institution has produced a number of successful students who have established themselves in various job sectors including educational, defense, medical, agricultural etc.

It is prominently observed that in the last few years, the institution has significantly improved in respect of modern-infrastructure with advanced teaching-learning tools, discipline and code of conduct for the students, accountability of the staffs and the development of good ambience and working atmosphere inside the campus.

I have been had personally attending in various social occasion, observance of National and International Day, awareness drives and witnessed for a live experience.

I, on behalf of the local authority, wish this institution be able to maintain this level of performance and improve with the pace of evolving world.

**LETTER OF APPRECIATION**

It is certified that Chandidas Mahavidyalaya has been imparting higher education for the pupil of the rural belt of Khujutipara in the Birbhum district of West Bengal since its inception in the year 1972 with the specific motto to educate the youth for making them employable, socially responsible and ethically correct for their holistic development with the pace of changing local as well as global perspective. In the last few years, the institution has been empowered through Govt. funds in respect of modern infrastructure with advanced teaching learning tools, discipline and code of conduct for the students, accountability of the staffs and the development of good ambience and working atmosphere inside the campus.

I had personally visited the institution in some of the social occasions, awareness drives and other activities organized by the institution in recent times.

I, on behalf of the local authority, wish this institution be able to maintain this level of performance and improve with the pace of evolving world.
