The students are required to participate in number of areas in educational institutions. Girls were provided with less participation opportunities as compared to their male counterparts and hence, it led to prevalence of gender inequality. In rural communities, this problem has been more severe as compared to urban communities. In educational institutions, gender inequality has been experienced. Girls have been discriminated against in terms of various aspects as compared to their male counterparts. Gender inequality in education is regarded as the major impediment within the course of overall progression of the system of education.
