Subject: To intimate college's own initiative to inspire and push a dream of higher education in the child's mind under the project of "Selling Dream" and request to allow your students to this college

Dear Sir/Madam,

I am pleased to share our noble project "Selling Dream", where we will welcome young students (Std. I onwards) from your school to this college with a view to inspire baby-mind and push a dream for higher education through field trip with playing and pleasuring mode. It may also be intimated that we will make due arrangement for all wards from leaving your school to reach back.

In this respect we believe that you will be happy and allow your students.

In the same context we expect your kind consent with mentioning the information of a) no. of students, b) date, time and c) no. of escorts to be attached with the team.

We look forward to have your affirmation.

Thanking You,

Yours faithfully

Report

Chandidas Mahavidyalaya, as an educational institution, has always strived to create a positive impact on the surrounding area of Khujutipara and its inhabitants whether it be through its NSS wing or other socially oriented activities. With such an objective in mind, on 5th March, 2019, under the 'Selling Dreams' initiative, the college organized a special tour for the students of the neighbouring Primary School, Chhatingram Primary School to help them understand and appreciate the significance of higher education.

39 children from the school visited the college premises under close and cordial association and supervision of many teachers and non-teaching staff of the college. A few teachers from the students' school were also with the children to co-operate and escort them. The program began with a small motivational speech by the principal of Chandidas Mahavidyalaya, Dr. Sk. Ataur Rahaman, who tried to explain the need and scope of higher education to inspire them. The principal's speech was followed by the showing of a couple of brief animated, motivational videos to further evoke interest in the young minds. The children were then given a tour of the entire college: they were shown through the classrooms – normal and ICT-enabled, the seminar room, the library, the auditorium, the sports and the gym rooms and so on to help them better understand and envision what studying in a college entails. The program ended with the giving of a small token and chocolates to the children and by asking for their feedback on their overall experience. The children's response was overwhelmingly positive and they even looked forward to visiting again in the future.

In conclusion, the endeavour was successful since it managed to achieve its objective of creating interest and motivation in the minds of the school children to pursue higher studies and help the children become more sensitized towards issues of social, political and ethical relevance.

"All of our dreams can
come true, if we have the
courage to pursue them."
